Tier-2 Computing and Service Facilities

HPC (*and HPDA and AI and Quantum Computing*) is part of a global strategy on digital infrastructures and services

- Network
- Hosting facilities (datacenters)
- Cloud based services

→ Coherency between european/national/regional level

→ Servicing research communities

- Keeping the right level of investment...
- A strong need of user support
- A lot of work for optimizing/re-writing applications
- Looking towards the post-exascale area
- Efficiency needs coherency between HW investments / Applications Software / Training, Support and Competences and skills
- A forum to share experiences...
